

STOLL

BMS 52 ki

# STOLL knitelligence® TOOLS

Like every STOLL machine the BMS 52 ki provides an efficient, automated, fully digitized production, as it interacts optimally with knitelligence® components.

**STOLL-artwork®** - knitting support in Adobe® Photoshop® for better communication between designers and technicians.

**M1plus®** and **k.innovation CREATE PLUS** - well known pattern software and new pattern software for the creation of knitting programs.

**STOLL-autocreate®** - automation tool for creating knitting programs without manual intervention.

**GKS (Grading for Knitting System)** - highly efficient tool for shaping and grading.

**SIN (Sintral Crypto Infrastructure)** - protection of intellectual property.

**PPS (Production Planning System)** - software tool for production planning and machine management.

# EQUIPPED WITH PROVEN

# STOLL TECHNOLOGY

- knitelligence® generation
- 52" working width
- 10 normal yarn carriers (optional max. 32)
- 2 knitting systems
- Gauges E 7.2 | 12 | 14 (further gauges to follow)
- Combined Belt take-down and Comb take-down
- Clamping and cutting device (each side with 1 cutter and 2 clamps)
- Friction feed wheel left/right
- Racking movement: ±2" (totally 4")
- Networking possibility
- Power supply: Single phase AC 230 V +/-10
- ASCON® optional

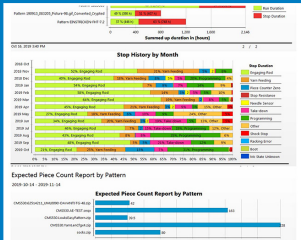

## QR- and Barcode-Scanner

The built-in barcode and QR-code scanner interface for faster message report, scanning order number, send standard notifications, etc.

## Multi-Touch Panel

Fully-fledged PC with Windows 10 and improved legibility. The display has a size of 15.6" as well as capacitive touch. It offers a faster display reaction and new gestures.

## EKR (Extended Knit Report) - Standard

Data- and Infrastructure Management. PPS Server Installation required

## RFID interface:

Modern, faster, easier and automated individual registration via RFID; no boring and laborious typing of the own identification.

# COSTUMER BENEFITS:

- Part of Stoll family
- Same quality Stoll standards
- Very good and extremely interesting price / performance ratio in terms of investment, spare parts and operating costs
- Wide availability of spare and consumption parts
- Machine parts/construction sets with a great market penetration → more potential machine operators available
