

# KNITELLIGENCE<sup>®</sup> MACHINES

STOLL

With the new knitelligence<sup>®</sup> machine generation the CMS 503 ki is prepared for the special requirements of the modern digital era: process automation, transparency, digitization, shorter response times, shorter production cycles, networking, new business models, etc. to name just a few facts.

From KARL  
MAYER STOLL  
production plant in  
Changzhou, we deliver  
German quality machines,  
assembled in China, close  
to the markets, with an  
excellent price-performance  
ratio.

STOLL

## THE NEW MEMBER OF OUR ECONOMIC RANGE FOR HIGHER PRODUCTIVITY

### OUR GOAL:

More productivity

### OUR SOLUTION:

High productive and economic flat knitting machine for a wide range of fully fashion applications

\*further gauges on request

### EQUIPPED WITH PROVEN STOLL TECHNOLOGY

Control generation:	EKC (knitelligence® generation)
Working width:	45" / 114 cm
Knit and transfer systems:	3 (front/rear)
Distance between systems:	5" / 5.2"
Machine dimensions:	length 2435 mm / depth 909 mm
Gauges:	3,5.2; 7.2; 14/12*
Friction feed wheel:	right side
Supply voltage:	single phase (AC 230V +/-10%)
Yarn control units:	14
Yarn carriers:	10 N + 2 plating on track 4 + 5
Clamp & cutting device:	12 fold right
Take-down:	STOLL-multiflex® + comb + auxiliary
