ITMA 2015
CAPSULE COLLECTION
STOLL
As the leading creative showcase in its field, ITMA is to the knitting industry what Salone del Mobile is to interior enthusiasts.

As well as hosting ITMA 2015, the City of Milan has long played an integral role in the evolution of Europe’s contemporary design history. During the 1980s, it was the birthplace of the MEMPHIS movement, the inspiration behind the STOLL Capsule Collection ITMA 2015.

The key players of MEMPHIS challenged the established aesthetics of their time with humorous and unconventional concepts. Their ideas and products heralded a new decade of excess and clashed with the predominant academic thinking of preceding decades like ‘Form follows Function’ and ‘Less is More’.

The iconic ‘Carlton’ room divider designed by Ettore Sottsass uniquely reflects the MEMPHIS spirit and thus became the driving force for the creation of our ITMA samples.

Especially the STOLL CMS ADF machine technique questions the status quo in knitting production today, providing outstanding tools with the potential to push the boundaries in both fashion and interior design. These new aesthetics will inform all kinds of knitted objects, even in our daily life. And, by channeling the spirit of MEMPHIS in our products, we aim to put a smile on people’s faces.

For ITMA 2015 we turn a new page in the CMS ADF-Group book with CMS ADF 16 multi gauge in E 3,5.2. The colourful graphic pattern which is created with Inverse and Selective Plating and outlined with waves and aran reminds of Ettore Sottsass' room divider “Carlton”. A modern geometric interpretation of a classic aran menswear pullover with gored sleeves and saddle shoulder.

- Pullover with saddle shoulder
- Inverse and selective plated jersey, knitted in 1x1 technique with aran and wave structure
- Sleeve is ready-made across the knitting direction and shaped by gore technique
