

TIME IS RELATIVE - RELATIVELY IMPORTANT

Many important details yield to enhanced productivity

The new, improved version of our M1plus® plays a very significant role in enhancing productivity. Not only knitting experts will get a runtime-saving program. The new M1plus® also helps beginners with optimized knitting sequences and processes. The optimized yarn carrier staggering makes the decisive contribution to that end by parking the yarn carriers automatically at the fabric selvage in an improved manner.

COMPACT SOLUTIONS

CMS 502 HP+ / CMS 502 HP+ MULTI GAUGE

CMS 502 HP+

ADVANTAGES OF THE CMS 502 HP+:

- + 12-fold instead of 8-fold clamping and cutting device (right)
- + 2 complementary plating yarn carriers: standard
- + Single phase control - reduced energy supply
- + Auxiliary take-down: standard

OUR GOAL: THE BEST RESULTS

Our solution: two additional High-Efficiency knitting machines: CMS 502 HP+ and CMS 502 HP+ multi gauge

We designed two additional high-efficiency knitting machines: CMS 502 HP+ and CMS 502 HP+ multi gauge. Adding up all the improved details that come with our productivity pack leads to an outstanding result: enhanced productivity - without increasing the knitting speed itself! You can expect much higher productivity without higher requirements on the yarns.

ENGINEERED IN GERMANY - ASSEMBLED IN CHINA

With Stoll's production plant in Jinshan, China, which is a 100% Stoll subsidiary the company is really close to the main markets. With the entry models - CMS 502 HP+ and CMS 502 HP+ multi gauge, that are assembled there but engineered in Germany Stoll offers a small machine in short delivery time.

We deliver

GERMAN QUALITY

which guarantees

MARKET PROXIMITY

and

PRICE PERFORMANCE
